ScotEID - Scottish EID Livestock Traceability Research

ScotEID works closely with the Scottish livestock sector & Scottish Government to design, develop and deliver solutions to ensure robust traceability and minimise legislative difficulties.

Scottish **sheep**, **pig** & **cattle** keepers can [register with ScotEID](#) in order to meet or minimise current legislative requirements.

A photograph of a herd of cattle grazing in a lush green field. The cattle are of various breeds, including some with white faces and others that are solid brown or tan. They are scattered across the field, with some in the foreground and others further back. The background features rolling green hills under a clear blue sky. The text "Cattle Example" is overlaid in the center of the image.

A photograph of a large herd of sheep grazing in a lush green field. The sheep are of various breeds, including some with white wool and others with darker, brownish wool. They are scattered across the field, with some in the foreground and others further back. The background features rolling green hills under a clear, bright blue sky. The overall scene is peaceful and pastoral.

Record vaccination IDs

Please enter the official individual IDs below

Please use the official ID format. This should be the 6 digit flock number followed by the five digit individual ID, for example UK55544400100.

Please note: If less than 6 digits are entered then the previous flock number will be copied.

Only enter IDs which have been vaccinated.
