

## Vaccination Guidance

### Navigating the Vaccinations home page

On the Vaccinations home page you will be able to access:

- the **Vaccination Checker** - enter an ID number to check vaccination status
- **View All Vaccinations** - view all stock you have recorded as having been vaccinated
- **Cattle on holding** - a list of all the cattle on your holding and their vaccination status
- **Sheep** - a list of the sheep you have vaccinated
- **Goats** - a list of the goats you have vaccinated
- **Record Vaccinations** - the form to record a vaccination

### Recording vaccinations

1. Click on **Record Vaccinations** link.

2. Complete **Vaccination details** form:

- Select the **Disease** – currently limited to *Bluetongue*
- Enter a **reference** (optional), e.g. bulling heifers; breeding cows; rams; breeding ewes
- Select the **Species** vaccinated – Cattle; Sheep; Goats
- Choose the **Product name** – Bultavo-3; BLUEVAC-3; Syvazul BTV
- Choose the **Dose Type** – Primary single dose; Primary first dose; Primary second dose; Booster

Some species require two primary vaccinations administered 3 weeks apart; these are indicated on the Dose type dropdown by "Primary first dose" and "Primary second dose". For species that only require a single vaccination, select "Primary single dose".

- Select the **Treatment date**
- Check the **Next Dose due** date (auto-populated after selecting the Species and Dose Type)
- Enter the **Batch No(s)** from the vaccine bottle/packaging
- Enter or verify the **CPH** animals were vaccinated on
- If using an ID/tag file, tick the **Upload ID/tag file** checkbox; otherwise leave it unticked

Instead of manually entering/selecting animal IDs, a file containing the IDs can be uploaded. Such files can be generated by EID readers; exported from farm software packages; or created via a spreadsheet or txt file. Please note that there is no common standard for files generated by EID readers or exported from farm software, so results vary. A comma separated values (csv) file is the best format to use. List all IDs in one column, preferably without spaces in the ID.

- Confirm that you have followed the vaccine instructions
- Add any further **comments** as required
- Click on **Continue** once you have completed the form

3. **Enter/select the IDs** of vaccinated animals. Depending on which Dose Type is selected, you will be presented with a variation of screens in this step.

- **If using an ID/tag file:**

- Click on **Choose file** to select your prepared ID/tag file. A comma separated values (csv) file is the best format to use.
- Click on **Continue** to upload the file.
- The animal IDs will be presented and you will have the option to manually add more IDs or delete any shown IDs.

### Upload EID file

Please note that there are many, many different EID file formats and inevitably there will be some that are not currently supported by the website. If you find your file does not import correctly please send a copy of it to support@scoteid.com and we will attempt to provide future support for it.

BTV Vaccina... Group 1.csv

### Record vaccination IDs

#### Please enter the official individual IDs below

Please use the official ID format. This should be the 6 digit flock number followed by the five digit individual ID, for example UK55544400100.

Please note: If less than 6 digits are entered then the previous flock number will be copied.

Only enter IDs which have been vaccinated.

1. UK [REDACTED]	<input type="button" value="Delete"/>
2. UK [REDACTED]	<input type="button" value="Delete"/>
3. UK [REDACTED]	<input type="button" value="Delete"/>
4. UK [REDACTED]	<input type="button" value="Delete"/>
5. UK [REDACTED]	<input type="button" value="Delete"/>
6. UK [REDACTED]	<input type="button" value="Delete"/>
7. UK [REDACTED]	<input type="button" value="Delete"/>
8. UK [REDACTED]	<input type="button" value="Delete"/>
9. UK [REDACTED]	<input type="button" value="Delete"/>
10. UK [REDACTED]	<input type="button" value="Delete"/>

- Click on **Continue** to submit the IDs.

- **Primary first dose OR Primary single dose: Cattle**

- Select cattle IDs using the '**Cattle select**' table presented by entering 3 or 4 digits to quick filter animals, or by scanning the passport, or by using the checkboxes to select the cattle

## Select vaccinated cattle

Enter or select cattle from list

Cattle select

Please check the list before continuing

Cattle selected:

- After selecting all vaccinated animal IDs, click on **Continue**.

- Primary first dose OR Primary single dose: Sheep/Goats**

- Using the entry form, add the full UK tag number of each vaccinated animal, ie UK50012300111.
- If all animals have the same flock mark, after you have entered the first ID you can simply enter the last 5 digits of the subsequent IDs and the flock mark will be adopted from the previous entry.

### Record vaccination IDs

Please enter the official individual IDs below

Please use the official ID format. This should be the 6 digit flock number followed by the five digit individual ID, for example UK55544400100.

Please note: If less than 6 digits are entered then the previous flock number will be copied.  
Only enter IDs which have been vaccinated.

1.    
2.

<input type="button" value="Continue"/>									

- Selected IDs will be listed below the table.
- After selecting all vaccinated animal IDs, click on **Continue**.

4. Check over the **Confirm vaccination details** page then click on **Submit** to record the vaccination.

- If you need to edit any information, use the **Edit** link to navigate back to the vaccination details form, make your corrections and continue through submission again
